MEMORANDUM FOR All State TTAD Managers
SUBJECT: Temporary Tour of Active Duty (TTAD) Request

    c. Skills/qualifications required: Familiarity with ATM protocols is desirable. Networking experience, preferred experience in IDNX, NIPR Net/SIPR Net and CERT.

    d. Minimum military and civilian education required: Advanced Course required. CAS3 preferred. Bachelor's degree required. Masters preferred.

    e. Security clearance required: SECRET. MUST be able to obtain an interim Top Secret prior to accepting the position.

4. Project justification:

The project to be completed is a real world operational mission is in support of the increased Force Protection THREATCON level. Recent world events make it necessary for the Defense Information Systems Agency (DISA) to enhance its current capability in support operations around the world. In order to accomplish this major undertaking it is critical that we have the support of the entire force.

This mission requires monitoring and status collection of all strategic communications that directly supports the Global War on Terrorism. This requirement has developed and must be in place to protect specific data and create Information Security throughout the world.The need for this project was created due to the requirement for increased Force Protection THREATCON for operations in CONUS and OCONUS and will provide 24/7 network operations support.

The project is vital to the function of this office and for the following reason(s): The DISA Global Network Operations and Security Centers (GNOSC) tailors, monitors, directs, and integrates elements of the Global Information Gig (GIG) in support of the Combatant Commanders and other component forces.

5. Point of contact for this request is the Joint Reserve Components Program Office at (877) 541-4036.

                            KEVIN O'BRIEN
                            Program Manager for
                              Reserve Operations
